RE: Plateau Mining Corporation "Willow Creek" Mine - Application for a Permit Revision,
Phase I and III Bond Release, Task ID No 2344

Dear Sir or Madam:

This in response to the Utah Division of Oil, Gas, & Mining's (UT-DOGM) October 3, 2005, request for a decision, under 30 CFR 944.30, whether the above subject permit revision constitutes a mining plan modification.

Mining plan approvals by the Secretary of the Interior are required under the Mineral Leasing Act of 1920, 30 U.S.C. 181, *et seq.* before coal mining can occur on Federal lands. This letter serves to document OSM's determination whether or not a mining plan approval from the Secretary is required for the above permitting action.

OSM's review of the Application for a Permit Revision, Phase I and III Bond Release, has determined that it requests Phase I bond release for approximately forty-nine (49) acres of land associated with a coal refuse pile and Phase III bond release for approximately forty-six (46) acres of land associated with a preparation plant at the Willow Creek Mine, Utah State permit C/007/038.

Based on a review of the activities associated with the permit revision, OSM has determined that the proposal does not meet the requirements of 30 CFR 746.18(d). Therefore, the proposed permit revision does not constitute a mining plan action requiring Secretarial approval. ✓

OSM's decision was based solely upon the Federal regulations under 30 CFR PART 746 and not the technical aspects of the revision application itself. Consequently, OSM's decision does not relieve UT-DOGM from coordinating the review and approval of the Application for a Permit Revision, Phase I and III Bond Release, with other Federal agencies for compliance with other Federal regulations.

OSM also electronically transmitted the October 3, 2005 request to the Bureau of Land Management and the U.S. Forest Service for their review and comment.

RECEIVED

OCT 0 / 2005

DIV. OF OIL, GAS & MINING

In an electronic submittal dated October 3, 2005, the U.S. Forest service stated it had no comments or concerns with the permit revision.

In an electronic transmittal dated October 3, 2005, the Bureau of Land Management stated in its opinion the permit revision did not constitute a mining plan action requiring Secretarial approval.

Please notify the applicant of our decision on this matter.

Should you have any questions regarding this letter or approval, please contact Carl R. Johnston, Utah Federal Lands coordinator, at (303) 844-1400, extension 1500.

Sincerely,

Ranvir Singh
